

Amethyst Trailhead Information

Begin your experience on the Pacific Electric Trail at the Amethyst Trailhead. A large sign has been placed at this Trailhead with information about the history of the Pacific Electric Railway and its importance to the history of Rancho Cucamonga.

This trailhead includes features such as: a water fountain, picnic table, waste bin, bicycle rack, and a parking lot. The Parking lot is located behind the school district facilities and there are 16 designated parking slots.

Trail users can enjoy a break at this trailhead and enjoy the scenery of the San Gabriel Mountains while eating lunch at the picnic table. In the future more picnic tables, water fountains, bicycle racks, and waste bins will be placed throughout the trail.

Completion of the trail from Grove to Amethyst is expected to be finished in 2010.
