## TRAC VOLUNTEERING IS REWARDING

My name is Crystal Lopez and I m twelve years old and I have volunteered for almost a year now. I have live in Rancho Cucamonga for all of my life. The reason why I like Trac is because instant of sitting around in my house doing nothing being bored, instead I could have fun doing activitics like going to amusement parks, when it cost a little bite lesser than the real price to go with Trac. Where you could invite your friend from school to go with you. Trac is where you could volunteer to do baby sitting for parents so they can go out on town night. I have volunteered to clean up the beach this mouth and after the clean up we are going to have a picnic.

I m going to Senior visit this mouth, to go and visit people that are isolated from leaving and you could ask them question what they did before they retired, to now. Trac is where we played movies in the park for kids to in joy and we have snack bar. But the movies we play are for free in the park. Also we have trac meetings every month and we talk about what we are going to do for this month. Then we play games to just have fun. Also my family in Rancho Cucamonga does Trac also with me it is fun doing it with family. I want to thank Layne for making it so fun for everyone.
